

Petition for
Tokyo High Court

Honourable Judge/s

We the family members of Govinda Prasad Mainali from Nepal would request this esteemed Court to kindly analyse the new DNA evidence very carefully and promptly decide to open the retrial.

Please assure and see that an innocent man does not need to go any further cycle of suffering being convicted for a crime that he has never committed. It is hard for us to believe that in 21st century an innocent person like our Govinda is compelled to undergo tremendous suffering with immense pain and agony in a country like Japan with full-fledged democracy and extreme scientific advancement.

We are sure that the court will listen our humble request and the prayer from our Govinda to open the retrial which will reflect the view of civilized society of modern day Japan. Your positive step in this regard will definitely provide justice for Govinda.

Yours truly,

Indra Prasad Mainali

(Elder Brother)

Mrs Radhika Devi Mainali

(Wife of Govinda)

Kathmandu
