

Petition for

The Tokyo High Public Prosecutors Office

We the undersigned, elder brother and wife of Govinda Prasad Mainali are sending this Petition to this Office demanding the release of our Govinda.

Please note the recent revelation of the findings of the new DNA tests, it is clear to everyone that our Govinda did not commit the crime. His consistent denial of the allegations and our strong belief that Govinda could not have committed such a grave crime have now been true and proven his innocence. It is so unfortunate to see an innocent man was delivered life imprisonment without having concrete evidences of his involvement in the crime. It is an extra-ordinary event that an innocent person had to spend 14 years of his prime lifetime waiting for the right and truthful analysis of the DNA of the true culprit. It is so deeply touching and painful to us the family members to see our Govinda had to undergo immense suffering and agony without deserving it.

Now it is in your discretion to release him without any delay. Your positive step will end his pain and assure him the justice he has been looking for so long without causing any hindrances in the process for his ultimate freedom.

Truly yours,

Indra Prasad Mainali

(Elder brother)

Mrs Radhika devi Mainali

(Wife)

Kathmandu, Nepal
