

The National Executive Committee of the Urgent 1.2 million Signature Petition Campaign: Requesting Legislative Resolution to the Issue of Japanese Military Slavery during WWII

To: Japanese Prime Minister, Naoto Kan;
Chair of the House of Representatives, Takahiro Yokomichi;
Chair of the House of Councilors, Takeo Nishioka

We request that our new central government draft and pass a relating bill without delay, seeking a comprehensive resolution to the "Comfort Women" issue. The Japanese state and its government must not leave this problem unresolved into the next generation. It must deliver an official, heartfelt apology and offer a concrete and comprehensive compensation package to the now elderly victims and survivors of Japanese military sex slavery during the Asia Pacific War.
